

practical purpose. At present the members of the Natives' Association can only founder about in the dark, and at best their conference merely partakes of the character of a debating society's meeting.

A meeting of the Executive Council, under the presidency of Sir Alfred Stephen, was held yesterday. It is understood that all the Ministers who were in town were present, and that the only business done which was of importance was that relating to the further protraction of Parliament until Tuesday, March 4.

Ministers sat in Cabinet for some time yesterday afternoon, but we are informed, no decisions were arrived at in respect to any of the matters upon which consideration was bestowed. It is said that, in the absence of the Colonial Treasurer and the Minister for Justice, who are in New Zealand, the remaining members of the Administration are unwilling to carry any business of importance.

It is expected that Mr. F. E. Rogers, Q.C., the president of the Land Court, will return from Tasmania in about a week. The appointment of a registrar and deputy-registrar of the court, and the making of arrangements in connection with the first sitting of the Court, will, it is believed, be deferred until after the return of Mr. Rogers.

Three deputations waited on the Minister for Works yesterday. The first was from Newnes in reference to the sewerage scheme for the district. Mr. Bruce Smith promised to have an accurate estimate of the cost of the scheme prepared, and the various municipalities interested could then say whether they were able to pay the annual cost. The same deputation asked for a reduction of the charge on water, and the Minister promised to look into the matter. The Goulburn people asked for a reduction in the amount of the water rate, and Mr. Smith said he would consider the matter. Mr. Kidd, M.L.A., representing a deputation from Kangaroo Valley, asked for a sum of money to clear Jack's Corner-read, and that such approaches might be made to the better factories in his electorate. The Minister promised that consideration should be given to the matter.

Owing to the heavy floods at Dalmerton, so the waters inform the Minister for Mines, some 20 miners and their provisions. Mr. Sydney Smith has approved of \$200 being granted to relieve this district, and he has further directed the miners to obtain a boat, which will be left in the care of the constable stationed in the district.

The Parliamentary Standing Committee on Public Works met yesterday, and took further evidence on the proposed water supply to the southern suburbs, Ekkidale and Hurstville. The evidence given was to the effect that the residents did not care by what means the water was brought to them as long as they got it, and would be quite as well satisfied with a scheme to cost \$2000 as with one to cost \$200,000, such as they had been led to believe was necessary. Mr. C. A. Goodchap, M.L.A., was under examination for the rest of the afternoon on the subject of the Marriwick-Burwood-road railway, and his examination had not concluded when the meeting adjourned. Mr. Goodchap's views were in favour of the proposal.

At the luncheon given by the Mayor yesterday, on the occasion of the first monthly meeting of the Council at which he has presided, the only visitor present was the Hon. Arthur Rutherford, M.L.A., the then Attorney-General in the Administration of Sir Samuel Griffith, in Queensland. Compliments were exchanged, and the visitors interchanged, and the visitor cordially welcomed. Opportunity was also taken to congratulate Mr. Merriman on his resumption of office as City Solicitor, after a visit to England and the Continent in search of health; and also to thank the Hon. W. J. Trickett, M.L.C., for his services as Acting City Solicitor during Mr. Merriman's absence. Alderman J. Harris, the ex-Mayor, proposed the health of Mrs. Bundok, and the toast was done full justice to by the company.

The City Council yesterday held its first monthly meeting this year, the Mayor, Mr. Burdok in presiding. Most of the business was of a routine character, but among the more interesting matters not on the notice paper was a short discussion on the proposals for improving the city tramway communication. Objections were taken both to the proposals of the Minister for Works for a cable tramway via King-street to Ocean-street, and Pitt and George streets to Harris-street, and to the system of tramway. The Council expressed their dissatisfaction with the treatment received from Governments of late years, and it was pointed out that both the city and the suburban municipalities could obtain a certain service and far better conditions under a bill which was tabled in Parliament late in the last session. General questions were asked in reference to the Volunteer Artillery Hotel which recently collapsed in Lower George-street, and it appeared that the condition of the building had been known as far back as 1886, when it was condemned.

At a meeting of the City Improvement Board held yesterday afternoon, the alleged ruined and dangerous state of the Exchange Hotel, situated at the corner of Pitt and Bridge streets, was the subject of much consideration. The premises were inspected and evidence given as to the state of the walls, and it was decided that the building should immediately be thoroughly secured by all necessary shoring and otherwise, to the satisfaction of the city building surveyor, and be taken down within two months.

A meeting of delegates representing the Free-Trade Associations of Central Cumberland and Graville was held in the Graville School of Arts on Monday evening for the purpose of referring to an amicable understanding with reference to the status of the two associations. After discussion it was resolved—"That the Graville branch assimilate with the association, and that the executive committee thereof be admitted to the council of the Central Cumberland Free-Trade Association, pro rata." This resolution will now be submitted to both branches for approval.

The delegation from certain men out of work introduced to the Minister for Works by Mr. Haynes on Monday, waited on the latter yesterday afternoon, as arranged, to ascertain what had been done in respect of the work referred to by the Minister. Earlier in the day Mr. Haynes had seen Mr. Deane, the officer in charge of the work, particulars of the excavations necessary in the Leichhardt-Five Dock tramway extension. It was arranged that Mr. Haynes should bring the matter to the work, and on inspection they could give a price for it. If satisfactory, the work would be put to small contract parties, and proceeded with at once. Mr. Haynes informed the delegation accordingly.

In connection with the unemployed agitation it may be mentioned that the Minister for Works had a conference with the acting Engineer-in-Chief for Railways yesterday, with a view to expediting the extension of the tramway from Leichhardt to Five Dock. The outcome of the interview was that it was determined to at once call for tenders for the earthwork and facing work. An announcement relative to this matter appears in our advertising columns, by which it will be seen that it is proposed to let the earthwork in sections. The object of this condition is to afford persons who are out of employment an opportunity for rendering the work. Tenders are to be sent in by 11 o'clock on Tuesday next.

The Habsburg, from Bremen, is timed to reach Sydney at daylight to-morrow. Leaving Germany the steamer had a well-filled passenger-list, and destined for Graville there were 152 for Australian ports. The latter were 102 for Melbourne, 58 for Sydney, 55. All enjoyed very good health coming out, and before leaving the Melbourne passengers expressed satisfaction with the provision which had been made for their comfort and with the attention paid to their requirements by Captain Thurnau and his officers. Coming so soon after the mammoth steamship, Kaiser Wilhelm

1., and Elba, the change to the Habsburg is noticeable. Nevertheless, she is one of the most comfortable boats of her line coming here, and is favourably known by those who have voyaged in her. In the list of passengers for Sydney is Captain Hermann, an Imperial German naval officer appointed to the warship Alexandria, at present on the Samoan station.

The Kaiser Wilhelm II., the fine steamship which recently paid a visit to Sydney for the first time in the North German Lloyd line, has distinguished herself on the high seas. The cable to her from Messrs. F. Bentz and Co. stated that the steamer was at Southampton on the 17th instant, and that she was then nine days in advance of course. The Kaiser Wilhelm left Sydney on December 8, Melbourne the 7th ultimo, and Adelaide on the 12th ultimo, so that her run to Southampton occupied but 36 days from Adelaide inclusive of all stops.

The Barman, which arrived here from Hamburg yesterday, is a new steamer on her maiden voyage. Some particulars concerning the ship, supplied by the principal agent of the German-Austrian Company of Hamburg, appeared in anticipation of the Barman's arrival. It will be sufficient, therefore, to point out that though the Barman is built on the same lines as the company's pioneer steamer the Elberfeld, she has not been built by the same drawbacks that vessel was with respect to the repeated breaking of the propeller. The voyage to Sydney was a success, and the captain of the steamer expressed himself well pleased with the ship, which, by the way, is one of Lord Armstrong's New-York-Titanic-build.

The chief engineer of the Barman speaks highly of the machinery, which the Barman is built on the same lines as the company's pioneer steamer the Elberfeld, she has not been built by the same drawbacks that vessel was with respect to the repeated breaking of the propeller. The voyage to Sydney was a success, and the captain of the steamer expressed himself well pleased with the ship, which, by the way, is one of Lord Armstrong's New-York-Titanic-build.

The Barman, which arrived here from Hamburg

had been left insecurely fixed in its socket and falling from its place an explosion took place. So far as the railings concerned, the whole of the carriages are lighted with gas, so that there need be no apprehension of accidents such as those that occurred a few days ago on the South Australian railways.

Mr. John Ramsay, one of the teachers of shorthand at the Technical College, has been selected, out of 19 applicants, by the Minister for Public Instruction to instruct the classes in phonography to be established in connection with the Sydney High School and the Fort-street Superior Public School. Mr. Ramsay, who will assume his duties as soon as possible, will be paid by the Government at the rate of 10s. per lesson, and will also receive the fees to be paid by the students.

Mr. F. S. Bray, of Queen's Place, Sydney, has sent us for inspection a very interesting collection of specimens showing the successive stages in the life history of the caddis, or leach, as it is more commonly named. The collection, which is carefully arranged in a showcase under glass cover, begins with a specimen showing the insect emerging from the earth, and this is immediately followed by the leech emerging from its shell, empty specimens of which are also shown in different varieties. The male and female caddis are then exhibited, with examples of the effects of their attacks on the wood of growing trees, when the repeated breaking of the propeller. The voyage to Sydney was a success, and the captain of the steamer expressed himself well pleased with the ship, which, by the way, is one of Lord Armstrong's New-York-Titanic-build.

## THE AUSTRALIAN NATIVES ASSOCIATION.

INTERCOLONIAL CONFERENCE.  
THE PRESIDENT'S INAUGURAL ADDRESS.[By TELEGRAPH.]  
(FROM OUR CORRESPONDENT.)

MELBOURNE, TUESDAY.

To-day the representatives of the Australian Natives' Association of Victoria, New South Wales, South Australia, Queensland, and Western Australia met in conference, in the Town Hall, on the subject of the federation of the colonies. The meeting did not commence till about half-past 2 in the afternoon, some of the delegates from South Australia and the delegates from Western Australia having only arrived in the morning by the Adelaide express. The following are the names of the delegates of the several colonies who attended the meeting:—Victoria—Mr. G. H. Wiss, vice-president; Mr. James Moloney, vice-president; Mr. T. Jefferson Cranmer, ex-president; Mr. A. J. Peacock, M.L.A., ex-president; Messrs. J. C. Bottomley, J. W. L. Lee, Mr. W. N. J. Scott, Mr. H. G. Smith, Mr. W. H. Wade, Mr. C. H. Tuckett, Mr. S. H. Prior, Queensland—Mr. W. V. Brown, Mr. J. R. Bradshaw, Mr. M. A. McEvily, Mr. A. (South Wales) seconded the motion which was carried unanimously.

The conference, after adjourning till 10 o'clock in the morning.

## SINKING OF A RIVER STEAMER.

[By TELEGRAPH.]  
(FROM OUR CORRESPONDENT.)

PATERSON, TUESDAY.

A public meeting, called by Mr. Hugo (Mayer) was held in the council chambers, last night, to consider what steps should be taken to the proposed site for the railway station at Cobargo. It was decided that it was premature to take any action in the matter at present, although it was the unanimous feeling that a far more suitable site for the station can be selected than that now surveyed.

## A CHINIAN CAMP BURNED DOWN.

[By TELEGRAPH.]  
(FROM OUR CORRESPONDENT.)

TUMUT, TUESDAY.

The Chinese camp, consisting of a large cluster of buildings in Pitney-street, was burned down last night. The occupants were engaged in their New Year's celebrations at the time. Only a little building was saved, and the Chinese were scattered, and the camp was kept from spreading to other parts.

Mr. J. C. F. Johnson seconded the motion, which was carried unanimously. Messrs. F. C. Walmsley, W. Burnett, and J. W. Hill were unanimously elected secretaries to the conference.

The conference adjourned the inaugural address, in the course of which he was frequently applauded. He said that these associations had now been firmly established in the Australian colonies, and to Victoria belonged the honour of first forming the association, the basis of which had been kept from spreading to other parts.

One of the main objects of these associations was to promote the national advancement of Australia, and to foster unity of feeling and action among the various colonies. They now need to consider how best to use their influence in order to attain that object.

He called attention to the opportunity of preventing a misapprehension that appeared to exist in the minds of many persons, who declared that the policy of these associations was separation from the British Empire. This he emphatically denied. The policy of the conference was to promote the national advancement of Australia, and to foster unity of feeling and action among the various colonies. They now need to consider how best to use their influence in order to attain that object.

He called attention to the importance of the conference, as far as the members of the conference were concerned, to the Federal Council, and that the members of the conference, as far as the members of the conference were concerned, had a right to be consulted.

The conference adjourned to date announced to 21st.

## THE TAMWORTH BELOVILENT SOCIETY.

[By TELEGRAPH.]  
(FROM OUR CORRESPONDENT.)

TAMWORTH, TUESDAY.

The annual meeting of subscribers to the Tamworth Belovilent Society was held on Saturday last. A very satisfactory report was presented, 107 cases were treated during the year, 29 being cases of typhoid fever. The total expenditure for the year was £102, income, including the gift of £100, £107. The committee has voted to give £100 to the Tamworth Hospital Fund. The Hon. P. G. King, M.L.C., was elected president; the Rev. W. J. Killikill Paddington and Mr. Charles Hogan, hon. secretaries; and Messrs. J. Piper, Loder, L. R. King, W. J. Smith, Nankervis, J. J. Dainton, committee. Drs. Harris and Walley are the medical officers.

## BUSH FIRES AT BEGA.

[By TELEGRAPH.]  
(FROM OUR CORRESPONDENT.)

BEKA, TUESDAY.

The weather continues dry, with the exception of very hot days and nights. There is not the slightest sign of rain. Bush fires have broken out in many directions. Yesterday Mr. John Olson's place, at Numeralla, was denuded of grass by a fire which swept over it, but the buildings were untouched.

## DETERMINED SUICIDE AT NARRABRI.

[By TELEGRAPH.]  
(FROM OUR CORRESPONDENT.)

NARRABRI, TUESDAY.

A man committed suicide by shooting himself this morning. He fired two shots most determinedly from a revolver. The man had been drinking for some days. He died almost immediately.

## DROWNING OF AN OLD RESIDENT OF WILCANNIA.

[By TELEGRAPH.]  
(FROM OUR CORRESPONDENT.)

WILCANNIA, TUESDAY.

Considerable excitement prevailed yesterday on the wharf when by the body of an old resident of Wilcannia named Thomas Willett, aged 80, was taken off. He was drinking heavily, and as he lives on the river bank, it is supposed he must have accidentally fallen in. An inquest was held before Mr. Walmsley Brown, and a verdict of drowned was returned.

## THE WINDSOR SCHOOL OF ARTS.

[By TELEGRAPH.]  
(FROM OUR CORRESPONDENT.)

WINDSOR, TUESDAY.

The annual meeting of the Windsor School of Arts was held last night, when there was a good attendance of members. The report showed that good work had been done during the past year, and that the number of members was increasing. On the library committee there was a general desire for what was considered necessary in the Society's interest. The articles of confederation of the United States agreed to in 1781 were found to be insufficient for the purposes of the Federal Government, and that the objections of the several colonies to the scheme proposed entailed an increase of the federal union. Australia had at the present time a Federal Council which had been in existence a few years as the result of a conference held in Sydney in 1883, at which he and the honourable Mr. J. J. Dainton were present. The Federal Council, in view of the circumstances, had no more power to enforce the decisions at which they might arrive than any other meeting of colonists would possess; but they claimed to represent a large number of Australian who had been compelled to meet, and to promote the welfare of the people, who consequently hoped that the result of their deliberations might assist those to whom they had been entrusted the government of these colonies. In reference to the question of federation, he was inclined to believe that the views of the Federal Council, in view of our colony, quite suited the needs of the colonies, and of the people generally, who in advance of those held by the Governments of the different colonies, and that many of them thought some of the Governments were disposed to overestimate the difficulties and uncertainties of the adoption of a federal union. Australia had at the present time a Federal Council which had been in existence a few years as the result of a conference held in Sydney in 1883, at which he and the honourable Mr. J. J. Dainton were present. Australia had at the present time a Federal Council which had been in existence a few years as the result of a conference held in Sydney in 1883, at which he and the honourable Mr. J. J. Dainton were present. The Federal Council, in view of the circumstances, had no more power to enforce the decisions at which they might arrive than any other meeting of colonists would possess; but they claimed to represent a large number of Australian who had been compelled to meet, and to promote the welfare of the people, who consequently hoped that the result of their deliberations might assist those to whom they had been entrusted the government of these colonies. In reference to the question of federation, he was inclined to believe that the views of the Federal Council, in view of our colony, quite suited the needs of the colonies, and of the people generally, who in advance of those held by the Governments of the different colonies, and that many of them thought some of the Governments were disposed to overestimate the difficulties and uncertainties of the adoption of a federal union. Australia had at the present time a Federal Council which had been in existence a few years as the result of a conference held in Sydney in 1883, at which he and the honourable Mr. J. J.
